#### WHO IS GOVERNOR?

This is the great question of the day, and it is asked and answered, in various ways, a thousand times a day. The vote is so close that it will probably require the official canvass to settle it unless, indeed, the counties not yet officially heard from have voted very differently from thereported results. Our tables, revised up to last night, puts Judge Raudail 651 ahead, with counties to hear from in which the friends of Mr. Cross clain some 300 majority, and not inciuding the vote of the rejected towns in Jeffer son county, said to be 325 for Cross.

On last Friday night, between 12 and 1 o'clock, the atam of fire was heard which caused all of our citizens that were neate, to rush to where it was supposed to be. In the meantime, Mr. Woodhouse and several cityons, succeeded in cetting 200 kers of nowder citizens, succeeded in getting 200 kegs of powder luto the liver from the warehouse of Charles Stillman & Co. About the time this work was finished; Afr. North, one of the firm of Woodhouse & Co., was endeavouring to save their papers, which he partially succeeded in doing, when the explosion took place—fatally wounding him and seriously injuring Mr. Miller. British India. The first lecture of the course is to be delivered to night at Albany Hall, as our readers will see by the advertisement. Both the Wisconsin and Free Democrat have had something to say about Heme Lectures. It is a truth, that we are too apt to think that nothing is worthy, unless it is imported from a distance, when we really think that there is as capable talent in this city as any audience might desire to hear. A subject so rich as Ispra cannot but make a lecture as interesting and attracting and it is really useful -A mountebank may please our eyes; but this course is good, solid food for the mind. We hope to see Albany Hall crowded.

This distinguished actress has been engaged to play four nights at the Metropolitan Theatre, and will make her first appearance this evening, in the character of "Julia," in the beautiful play of "Hunchback," Mi-s Davenport is cknowledged to be one of the first tragediencs in the country, and it is but necessary to announce her appearance to draw a big crowd. We have abundant evidence that real merit is, and always has been, fully appreciated in our city, and we do not think that this case will prove an exception. Often has it been lamented by many of our prominent citizens that we were without ! good theatre in Milwaukee-an effort is now being made to establish one here, but this cannot be done unless sufficiently supported. The only way to have good acting is to sustain good artists when they come here. While Mrs. Farren was playing at the Metropolitan, it was well attended, and when it was announced that Mr. Commbe, who wer known to be an actor of the first stance would appear, Young's Hall could not hold all that wanted to see him act, and we apprehend that if one or two "stars" were kept constantly officers of the Company. Upon the close of the war the invention was laid before Congress:—drawings were submitted to the Secretary of War:—General Quitman and other officers gave it their attention, and the whole matter was afterwayds: placed in the hands of several persons for the purpose of making experiments. It is now alleged by the States that these men were all Mormons, and that after becoming (smiliar, with the invention, they about done the inventor and carried their knowledge to Utah. ### Early in the Field.

The News of Sunday thus makes formal procla mation that Senator Douglas, of Illinois, is to be the "regular" nominee of the Pro-Slavery party at the Presidential contest three years hence : Concerning one important matter there is now no difference of opinion : Both Democrats and

no difference of opinion: Both Democrate and the opposition, here in the west, and throughout the extent of the Union, look upon Stephen A. Douglas, of Illinois, as the Stateman who is most likely to receive (as he certainly is most deserving of it) the nomination for the Presidency by the next National Democratic Convention. hich is to be held at Charleston, South Car

The News is canguine that this nomination would be acceptable to the People of Wisconsin, and that they, in common with their fellow-citizens of Illinois, Iowa, and the Western States generally, would endorse it at the polls. We think somewhat differently; but as the election is still some three years off, speculations us to the result are scarcely profitable yet awhile.

#### Election Frauds.

In view of the fact that Gross is probably elected, the Republican press is proparing to raise the natal erry of fraud. The "threshing and digging" theory will not answer, and they have therefore returned to their characteristic course of making wholesse and extravagant charges against their opponents.

or vice versa.—
Two years ago, the Argus and the News, were clearly of the upinion that the certificate of the State Chavassers was a finality. Min. Janus B. Chosa, furthermore, was of the same opinion.—
Two years ago, they all united in denying the authority of the Supreme Court to go behind the Canvass, or in any way to interfere with the do-terminations of the State Canvassers, holding the latter body as infallible as the Pope and their delatter body as infallible as the Pope and their de-cisions as-unbending us the laws of the Medes and Persiaus. Mr. JAMES B. CROSS, moreovery-assumed a very, bellicose, artitude, in regard to the Court at that time, and resolved to resust the action of the Court reviewing the decision of the State Canyanseers, with his "strength," Mr. and became very rampaut and minatory for a mild-visaged and placable, looking in vividual, as he really is.

The question now is whether Mr. Cross will continue to now is whether are looked with continue to each the authority of the course in this respect, and deprecate, with his former emphasis, what he was pleased to regard as as "laterfacing, with the Executive Department."

I were you've demand that the vote between Mr. Randull and Mr. Gross, at the recent election is

It will be remembered that the the the testing of 1856 flaesed an act amorning five towns, formerly belonging to Dodge, and the 5th and 5th ways of the city of Watentown, to 136f eron County. The con-cituologistry of the act in question has been seriously doubted. The mafourly of the lifthraum founty people person in rejecting the gift attempted to be forced upon the m, regarding it as a species of wonder horse, frought with danger to their present county seat The towns thus annexed made their returns to the Jefferson County Board of Canvassers. It is now too late to send those towns and wankee the past year, justifies an increase of over \$180,000 in the city tax, what ought to be the large and the State tax ?—Madison Jour.

That is "a horse of another color." The "cy-travagant" Republicans did not find the cessary it proper for Mr. thous to, file his information to add a single cent to the State as a built had a single cent to the State as a built had a single cent to the State as a built had a single cent to the State as a built had a single cent to the State as a built had a single cent to the State as a built had a single cent to the state of wice the Attorney General, in that event, and inquire, through the Supreme Court, by what au thority Mr. Randall exercises the office of Gover-nor. But Mr. Cross is committed to a differen dostrine. He holds that Mr. Randall, in case ou

apprehensions should be realized, is the Exec-utive Department. So do all his organs. The Executive Department is "co-equal, co-ordinate, number of inimigratus arrived at New York was 17,558. It is thought that the immigration during the remainder of the fall will continue gradually to decrease, but not to any very great execut, and be revived early in the spiring. The kept ked table will show the companitive!

We must conclude, that if Mr. Cross is defeated by the rejection of these flowing. In deferson, that if Mr. Cross is defeated by the rejection of these flowing. TWENTY THOUSAND AN HOUR Got Your Cards Done on the

Court of Appeas has now reversed the Judgment, and ordered a new trial

The ground taken by the Court, in the opinion which was delivered by Justice Selden, with the unantimous concurrence of the Court, is, that the dedication of I hand to the use of the public as a highway, is not a dedication of it to the use of the public as DOUBLE FIRE-FLY," a nighway, is not a decidation of it to the state as Railroad Company; that the two uses are essentially different and that consequently, a railread cannot be built upon a highway without compensation to the owners of the fee. The case is argued at considerable length, but with clearness Which Prints, Cuts, Counts and Feeds Itself, NOW IN OPERATION AT THE DAILY SENTINEL OFFICE. Nos. 205 and 207 E. Water St.

This decision gives to every owner of property upon any street through which a Railroad-pusses, claim for damages against the Company. It is possible that the peculiar construction of our City words, and the possibility of driving; upon their track with ordinary vehicles, may affect the application to them of the principles sind down by the Court—though we do not see how their effect can be changed or avoided. We presume the property owners upon the lines of these Roads will at once take steps to test this point.—N. Y. Times Nov. 11.
